

Supplementary Material IV: Plots for minimal lateral networks

In the following, all plots of all minimal lateral networks as computed for the different hypothesis are given. Abbreviations following the dialect names in squared brackets indicate the major dialect groups, namely:

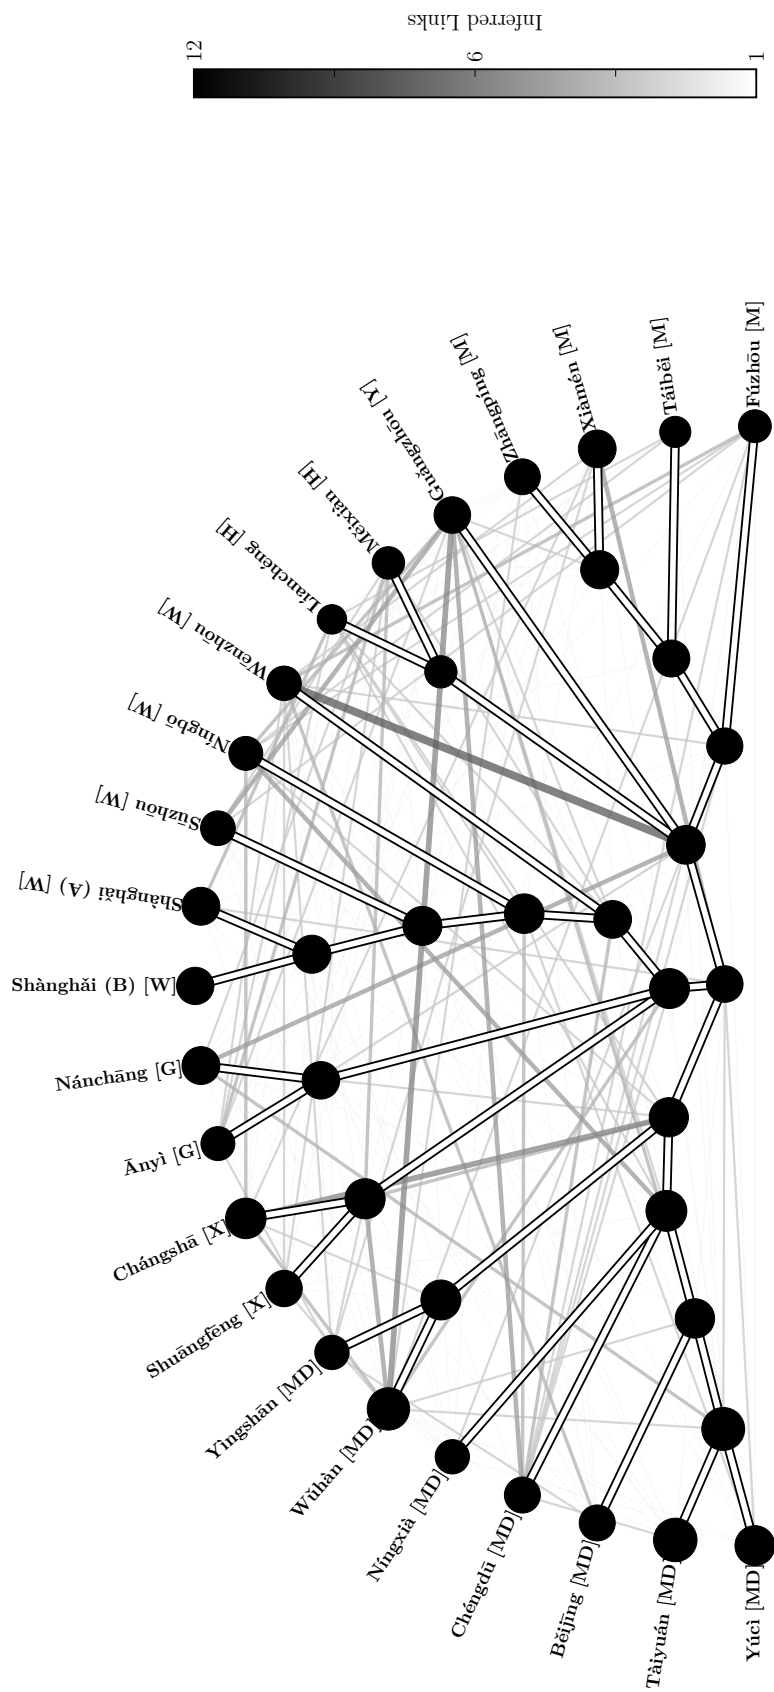

- G: Gàn
- H: Hakka
- M: Mǐn
- MD: Mandarin
- W: Wú
- X: Xiāng
- Y: Yuè

Please consult the main text of this paper for the sources underlying the different mln trees.

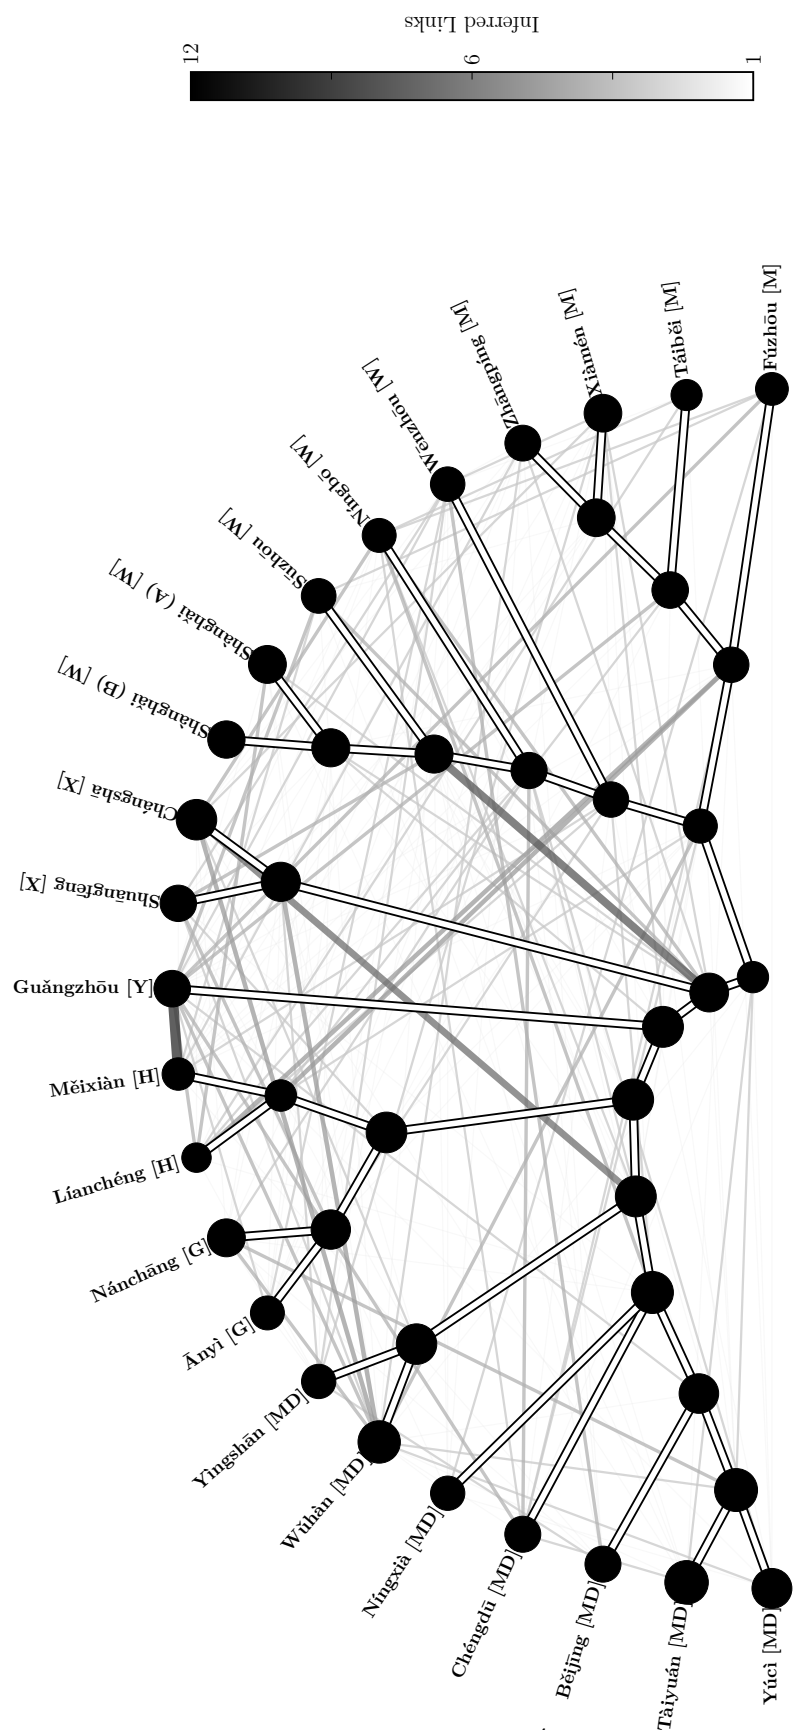

1 Arbre (Laurent Sagart)

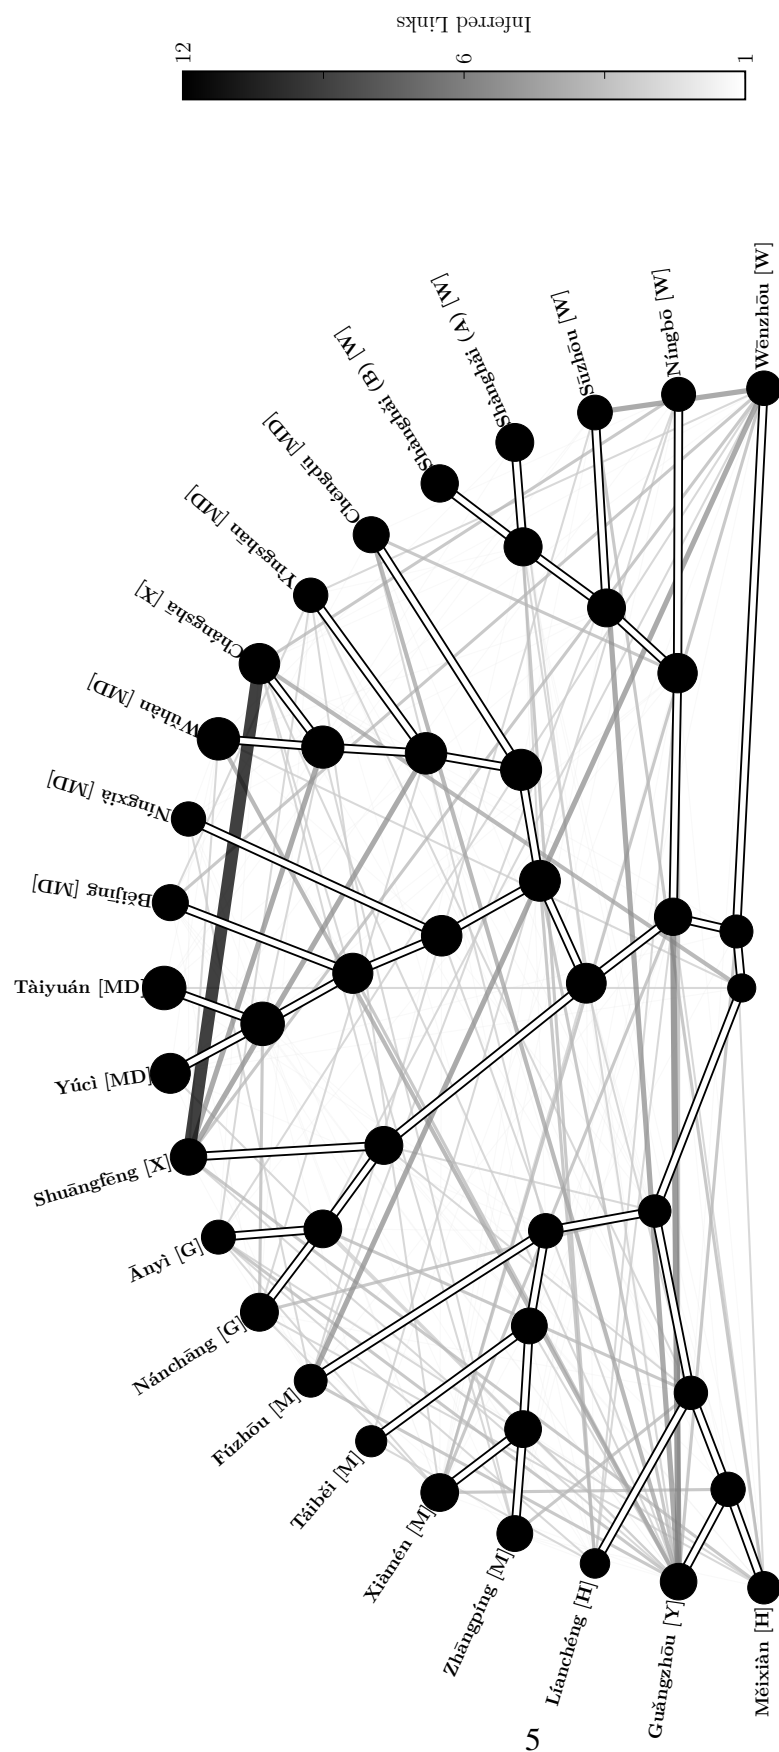

2 Southern Chinese (Jerry Norman)

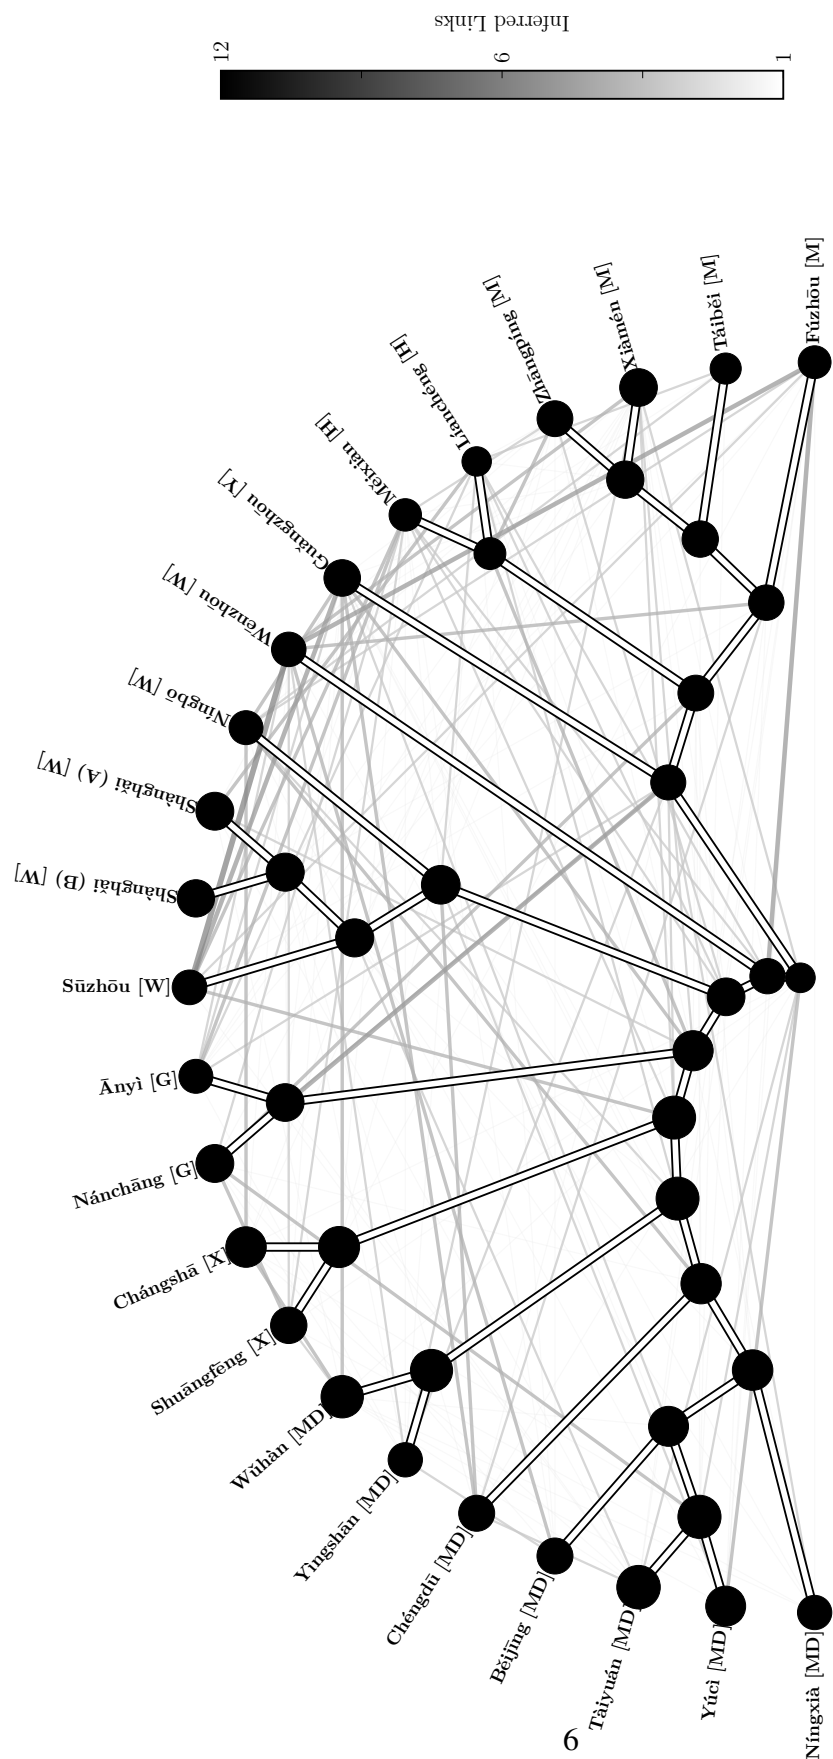

3 Shùxíngtú (Yóu Rǔjiá)

4 UPGMA (automatic analysis)

5 Neighbor-Joining (automatic analysis)

6 Parsimony (automatic analysis)
